Summary

Recent B.E. Information Technology graduate with strong skills in full-stack development. Experienced in building web applications using modern technologies like React, Python, and PHP. Eager to contribute to dynamic teams and grow as a software developer.

Education

LDRP Institute of Technology and Research — B.E. in Information Technology

October 2021 – April 2025

- CGPA: 7.8/10
- Coursework: Data Structures, Web Development, Database Management, AI & ML Fundamentals

Experience

Web Development Intern – Neptune Technolab

December 2023 – January 2024

- Developed **EverStick**, an advanced sticky notes web app with features like voice-to-text, PDF export, reminders, and real-time collaboration.
- Enhanced UI responsiveness and overall performance using **HTML**, **CSS**, and **JavaScript**.

Angular Developer Intern – Tatvasoft

May 2024 – June 2024

- Contributed to the **Mission Management System** using **Angular CLI (v14.2.13)**, focusing on scalable, component-based architecture.
- Implemented core features including user authentication, admin management, and mission handling.

Projects

❖ Game Zone System: [\(Demo\)](#)

Built a **Python**-based Game Zone app to manage balance and game access.

❖ Shopping Cart System: [\(Demo\)](#)

Created a **Python**-based Shopping Cart System with discounts, GST and bill generation.

❖ Restaurant Ordering System: [\(Demo\)](#)

Developed a **Python**-based Restaurant Ordering System with dynamic menu creation and customer order selection via console.

❖ Career Catalyst: [\(Demo\)](#)

Built a campus placement system with job applications, exams, and admin controls using **PHP** and **MySQL**.

❖ Care Companion:

Developed an AI medical chatbot with **Llama-2**, **Flask**, and **Pinecone** for real-time healthcare info.

❖ YouTube Transcript Summarizer: [\(Demo\)](#)

Created a Chrome extension to auto-summarize YouTube transcripts using **NLP** and **Python**.

❖ Future-Learn System: [\(Demo\)](#)

Designed a role-based e-learning platform with secure login and multimedia content.

❖ VocalTasker: [\(Demo\)](#)

Built a **React.js** task manager with real-time voice alerts and live reminders.

Technologies

- **Programming:** C, C++, Java, Python, PHP
- **Frontend:** HTML5, CSS3, Bootstrap5, JavaScript, jQuery, React.js, Angular
- **Backend:** PHP, Node.js (Express.js), Python (Django, Flask)
- **Databases:** MySQL, PostgreSQL, Oracle, MongoDB
- **Version Control:** GitHub
- **Development Tools:** VS Code, XAMPP, Figma (UI/UX Design)
- **Other Tools & Technologies:** JSON, AJAX, Responsive Web Design
